We Accredited with

At Flavee Ingredients, we are adding the flavors to each food which consume by industries or for final customers. The world Without onion and garlic flavors not imagine because it's a daily routine in our food portfolio, that's why we serve our premium range of onion and garlic products to our end users and industrial users. **We are the processor of dried onion and garlic products with different size and forms.**

We serve our products more than thirty countries worldwide. Quality is the main focus because the modern food industries demanding precise quality which fits their flavors in their production and as well final customers too. Changing food trade is another criteria to match the quality concern of our produce foods. Our Associated firm Certified with **FSSC 22000, HACCP, KLBD Kosher.** **In our production house we follow the standard which matches by FSSAI regulation of Local food safety, as well EU & US FDA global food quality standard.** Our quality chain starts from choosing the right raw materials to finish goods to each and every stage of production. Our Expert team helps us to achieve this goal. Learning and gaining of new opportunity helps us for differentiate with other competitors. Our partners always trust on us to make long term business relationship with communication on each stage of business for creating more values to us.

We provide our customers Food security for which they are paying to us. We provide food values for their money.

At Flavee Ingredients, We packed our products in highly food grade packaging materials to ensure that foods safety and long time sustainability for our final customers. We have stored our goods in our warehouse in a set temperature zone without difference in our food taste. It maintains same taste for a long time depending on the characteristic of foods varies from twelve month to twenty four months storing sustainability.

We would like to serve our products and requesting to send products inquiries to enable us to make quote. We will send our corporate catalogue and product analysis base on our client request. We hope to give us one chance or opportunity to starts our business relationship.

QUALITY POLICIES

At Flavee we care our product quality standard so define to ensure our clients get same quality at any place in global markets. Our associated firm Certified with global certification of FSSC 22000, HACCP, KLBD-Kosher.

☺**Commitment to consumers:-**

Safety & quality for our industrial food clients is FLAVEE'S top priority. This applies to our entire portfolio, from sourcing the raw material to finish goods to all our systems and services.

☺**Quality Management System**

Flavee Quality Management System is the platform that we use internally & globally to guarantee **food safety Management**, compliance with **quality performance standards** and to create value for our customers. Our internal Quality team is audited and verified by independent certification providers to ensure conformity to internal quality standards, norms, laws and regulatory frame requirements.

☺**Quality Policy:-**

Our code of conduct for quality policy insures our clients to get quality in our ingredients as desire by our clients with safety & commitment. Our Expertise ensures us to make quality according to the quality standard. We check our goods in every stage of production with CCP analysis time by time.

☺**From Farm To Kitchen**

Our Quality Management System starts from farms. We sometime do contract farming with farmers in rural communities to help them improve the quality of their produce to adopt environmentally sustainable farming practices. With this conclusion, farmer gets paid fair price for their produce.

QUALITY POLICIES

Quality Management System not only ensures our ongoing access to high quality raw materials. It also enables & helps farmers to protect or even increase their income. Standard of living of entire rural communities is raised as a result. This system helps address global environmental and social responsibilities issues.

😊 **Good Manufacturing Practices**

We adopt good MFG. / Trading Practice to each level of our quality compliance system. Our products made with good GMP to ensure our customer get standard quality with safety. It include standard operation practice, maintenance, equipments, training, and implementation of new plan for operation whenever it required in a systems, we also care products with Hazards critical point analysis implementation process. . **It covers the entire food production process from raw materials to distribution and consumption.**

😊 **Services to our customers Good Manufacturing Practices**

Our global customer's services ensure that we can immediately respond to any consumer inquiry, question or any point of concern. Our all exports consignment has labels information on each carton / bags to convey accurate product information to get our customers with perfect information.
